TO WHOMSOEVER IT MAY CONCERN

This is to certify that we have installed a Sewage Treatment System from **Bio-Microbics Inc (USA)** in April 2015. The system has been functioning very well with minimal maintenance and no operator. The system has proved to be reliable and robust. The treated water is being used for gardening.

We are satisfied with the service provided by **M/s BioWater Treatment Systems LLP** and testify to their technical competence. They have provided prompt service and carried out the work to the required standards. We find their overall performance to be excellent and have no hesitation in recommending their services.

We wish them success in their future endeavors.
